MADA GYPSUM

ALL-PURPOSE JOINTING **COMPOUND**

Issue No. 01 | September 2022

MADA ALL-PURPOSE **JOINTING COMPOUND**

Mada All-Purpose Jointing Compound uses a Calcium Carbonate based, non-asbestos formulation, with acrylic polymers and other additives to provide excellent crack free jointing and bonding, and improved workability over other jointing compound formulas. Mada All-Purpose Jointing Compound requires only minimal mixing, thinning, or retempering and is ready to use from the pail, making joint finishing faster, easier, and smoother while reducing labor costs and providing a superior finish.

Benefits

- Ready to use directly from the bucket.
- Creamy and smooth consistency.
- Outstanding slip and bond.
- Fast and smooth, reducing work efforts and improving appearance and job quality.
- Easy to sand.
