

# MADA CH-STUD

### Technical Data Sheet

TDS-MM-R07-Rev1 CH-STUD - May 202

#### **Product Description**

Manufactured from cold-rolled steel using a Hot-Dipped Galvanization process conforming to ASTM 653, Mada CH-Studs install vertically on 600mm spacing between the top and bottom wall tracks for Shaft Wall assemblies.

#### Field of Application

- Shaft Walls and Partitions
- Lift Shafts
- Fire Rated stud ceiling systems in Staircases

Tested and Certified to meet and exceed ASTM E119 for Fire Rated Systems

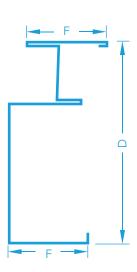

#### Manufacturing Standards

- All Mada Metal Profiles are manufactured to meet or exceed ASTM C645 and ASTM C955.
- Galvanized Steel Coils meet or exceed ASTM A653.
- For recommended storage and installation, please refer to ASTM C754 and ASTM C1007.

#### Product Characteristics

| Description             | Technicals Parameters                            |
|-------------------------|--|
| Coating                 | Z120, Z180 & Z275                                |
| Yield Strength          | 240MPa - 310MPa                                  |
| Tensile Strength        | 340MPa - 420MPa                                  |
| Material                | Galvanized Steel                                 |
| Flanges (mm) (F)        | 38/35  |
| Lip (mm)                | 4.5, 5.0, 5.5 & 6.0                              |
| Length                  | Minimum 3m and varies as per project requirement |
| Thickness (mm), [TCT]   | 0.55, 0.80, 0.90, 1.00, 1.20                     |
| Sizes (mm), [Depth] (D) | 64, 100, & 150                                   |

#### Recommendations

- Use Mada Wafer Head Screw for metal-to-metal connection.
- Use Mada Wall J-Runner Track and Mada J-Runner Deflection Head Track for Shaft partition installation.
- Contact technical@madagypsum.com for additional information.

## Material Storage and Handling

- Metal products are available in both pack and sub-pack quantities and should be handled in accordance with the recommendations contained in Local Health and Safety at Work Principles and Practices.
- Use only properly trained and licensed operators when for mechanical lifting or movement.
- Store metal products away from airborne contaminants such as acid or salt spray in an environmentally friendly area.
- Always wash hands for personal hygiene and before eating/drinking. Those with sensitive skin conditions should seek medical advice before prolonged handling of metal products.
- When cutting metal profiles, always wear non-fogging goggles for maximum eye protection.
- Consult the Mada System Guide for additional information about related systems and installations.
- Refer to Mada Safety Data Sheet for additional guidance with health and safety, storage, and handling.

#### Cold-Formed Steel Design References

- North American Specification for the Design of Cold-Formed Steel Structural Members (AISI S100 and AISI S200).
- Analysis and Design of Cold Formed Members per the LRFD and ASD Methods.

#### **General Notes**

- This product should not be used for purposes other than those shown on the Mada Technical Proposal.
- This product is a component of the Mada Plus System. Our System Performance Warranty applies to only framing systems made up entirely of Mada Plus System components.
- As products are improved, Mada Gypsum Company may amend this information as needed, without prior notice. Please refer to www.madagypsum.com for the latest information.
