# MADA (DHT) DEFLECTION HEAD TRACK

# Technical Data Sheet

### TDS-MM-R01-Rev1 DEFLECTION HEAD TRACK - May 2022

## **Product Description**

**Field of Application** 

Mada DHT (Deflection Head Track) supports the wall or soffit studs, allowing for the vertical deflection of floor beams and floor decks above. Our DHT track features a knurled surface for superior strength, increased stiffness, and less screw slippage.

Our Deflection Head Track (DHT) can be used for:

- Non-load bearing partition systems
- Liner systems
- Metal stud ceiling systems
- And other non-load bearing assemblies

Tested and Certified to meet and exceed ASTM E119 for Fire Rated Systems

# **TECHNICAL** DATA SHEET

### Manufacturing **Standards**

- All Mada Metal Profiles are manufactured to meet or exceed ASTM C645 and ASTM C955.
- Galvanized Steel Coils meet or exceed ASTM A653.
- For recommended storage and installation, please refer to ASTM C754 and ASTM C1007.

Prod	uct	
Char	acter	istics

Description	Technicals Parameters	
Coating	Z120, Z180 & Z275	
Yield Strength	240MPa - 310MPa	
Tensile Strength	340MPa - 420MPa	
Material	Galvanized Steel	
Flanges (mm) <mark>(F)</mark>	50/50	
Length	3000 mm	
Thickness (mm), [TCT]	0.50, 0.55, 0.60, 0.70, 0.80, 0.90, 1.00, 1.20 & 1.50.	
Sizes (mm), [Depth] (D)	42, 50, 60, 62, 70, 75, 90, 92, 100,125,150 & 200	

### **Recommendations**

- Use Mada Anchors to fix Mada Wall Track on the substrate.
- Use Mada Wafer Head Screw for metal-to-metal connection.
- Use Mada Wall Stud (C-Stud) for most partition installation.
- Contact technical@madagypsum.com for additional information.

# and Handling

# Material Storage

# **Cold-Formed Steel Design References**

## **General Notes**

- Metal products are available in both pack and sub-pack quantities and should be handled in accordance with the recommendations contained in Local Health and Safety at Work Principles and Practices.
- Use only properly trained and licensed operators when for mechanical lifting or movement.
- Store metal products away from airborne contaminants such as acid or salt spray in an environmentally friendly area.
- Always wash hands for personal hygiene and before eating/drinking. Those with sensitive skin conditions should seek medical advice before prolonged handling of metal products.
- When cutting metal profiles, always wear non-fogging goggles for maximum eye protection.
- Consult the Mada System Guide for additional information about related systems and installations.
- Refer to Mada Safety Data Sheet for additional guidance with health and safety, storage, and handling.
- North American Specification for the Design of Cold-Formed Steel Structural Members (AISI S100 and AISI S200).
  - Analysis and Design of Cold Formed Members per the LRFD and ASD Methods.
- This product should not be used for purposes other than those shown on the Mada Technical Proposal.
- This product is a component of the Mada Plus System. Our System Performance Warranty applies to only framing systems made up entirely of Mada Plus System components.
- As products are improved, Mada Gypsum Company may amend this information as needed, without prior notice. Please refer to www.madagypsum.com for the latest information.
