

# MADA RESILIENT CHANNEL

## Technical Data Sheet

TDS-MM-R11-Rev2 Resilient Channel - 2024

### Product Description

The Mada Resilient Channel work like an acoustical barrier, isolating the gypsum board from the framing system to minimize the contact area. Sound waves are disrupted as they attempt to travel through floor and wall assemblies and into adjoining areas, improving sound isolation performance.

### Field of Application

- Non-load bearing partition framing systems
- Liner systems
- Metal stud ceiling systems
- And other non-load bearing assemblies

Tested and Certified to meet and exceed ASTM E119 for Fire Rated Systems
